Hi Paul and Robert,

We've had some follow-up questions from the public, and expect we will for some time. Would one or both of you be free for a quick conversation regarding some of what we've heard to see if we can address it in a Q & A of sorts on our website?

Additionally, we've received a FOIA request for all documents and correspondence relating to Carus Chemical. Some of the material you provided us would qualify, under my understanding. I plan to go through the material and make redactions as necessary but let me know if you want me to work with one of your FOIA officers as well.

Appreciated,
